Woman's Friend

Nearly all women suffer at times from female ailments. Some women suffer more acutely and more constantly than others. But whether you have little pain or whether you suffer intensely, you should take Wine of Cardui and get relief.

Cardui is a safe, natural medicine, for women. prepared scientifically from harmless vegetable ingredients. It acts easily on the female organs and gives strength and tone to the whole system.

The Woman's Tonic

Mrs. Verna Wallace, of Sanger, Tex., tried Cardui. She writes: "Cardui has done more for me than I can describe. Last spring I was taken with female inflammation and consulted a doctor, but to no avail, so I took Cardui, and inside of three days, I was able to do my housework. Since then my trouble has never returned." Try it.

TIME FREIGHT CARS.

Traced by Hourly Reports the Whole

Length of Their Run. A freight car is essentially common property. It has to go from one line to another in the course of its business It has to carry loads from Jackson ville, Fla., to Spokane, Wash.; from were owned by one blg company and If that company charged the rallroads for the exact amount of use which they made of each car the situation would theoretically be more reasonable

than it is today. But in any case the wanderings of freight cars will always entall an enor mous amount of labor with pen and pencil and telegraph key and typewrit er and long distance telephone, writes William Hard in the Technical World

The modern hunter of freight cars is not satisfied with knowing where all the cars on his own lines are at the end of each day's run. Modern bus ness life has become so rapid that it the case of certain kinds of freight it is necessary to know just where each car is every few bours. This kind of freight is called time freight.

Ordinary freight to dead freight Time freight consists only of certain materials. These materials run alpha betically all the way from asbestus through cranberries, egg case fillers ink, peanuts and varuish, down to zinc. All cars in time freight trains are reported by telegraph from all di vision points

You can stand in front of a big board on the wall-it is like the board in a stockbroker's office except that it has little boles in it-and watch the prog ress of the cars in a time freight train from point to point. As the telegrams come in the pegs are moved from hole to hole. If you started a carload of varnish from Chicago to Omnha inst night you can come in today and see fust where that car is. You can watch it all the way to Omaha on the board. It is a cruel humiliation for the freight car. It used to be a wild stray enimal but now it is tamed and do mestlented. Just as we now have mu nicipal todama houses for tramps, s we have telegraph record boards for freight cars. Freity soon nobody will be able to escape from the authorities It is only occasionally under modern methods a freight car tracer has to g out and bring it home by force.
